

Unleaded Fuels

Sunoco 260 GT Plus

(New Name – Formerly Sunoco GT Plus Unleaded)

One of the highest octane unleaded racing gasolines available! Sunoco 260 GT Plus™ is specifically formulated for the professional racer and should not be used on the street. It is highly oxygenated to help produce maximum performance in classes which allow high dielectric fuels and is an excellent choice for modern computer-controlled applications which cannot otherwise tolerate tetraethyl lead (TEL). Sunoco 260 GT Plus Unleaded is recommended for compression ratio applications up to 12:1

FUEL PROPERTY	TYPICAL SPECIFICATIONS
Specific Gravity	0.747
Antiknock Index (R+M)/2	104
RON, Research Octane	109
MON, Motor Octane	99
Reid Vapor Pressure	6.6
Distillation, °F	
<i>Initial Boiling Point</i>	111
<i>10% Evaporation</i>	151
<i>50% Evaporation</i>	219
<i>90% Evaporation</i>	228
<i>Final Boiling Point</i>	254
Unleaded	Yes <i>For Off-Road Use Only</i>
Color	Light Blue
Oxygen, Wt%	4.8%
Dielectric Constant	17.6
